---

I talked with SNS about it. Do you think you can do 3.15? If so, I can submit a PO tomorrow.

Ok with us supplying it is \$3.21 a bottle. This is with me putting NO markup on raw material cost. Basically when we cost something out we markup the same way you guys do.. based upon overall cost. At \$3.21 I am giving you raws at cost and only making money of mfg cost.

What is the quote with you supplying? Can you get it to under 3.00?

**Subject:** RE: SNS CEE 120ct

Sorry sorry, my mistake. That was with you guys supplying the CEE. I have to get these capsules from Capsugel which is \$1 more then what we usually pay for colored #00 and I have to granulate, dry, and mill the material.

Let me confirm, 2.40 per unit with you supplying the CEE? If so, I can get you a PO on this tomorrow.

Do you have the CEE tested beforehand? (You probably remember the issues with this in the past)

**To:** bryan@competitiveedgelabs.com

**Subject:** SNS CEE 120ct

Price is \$2.40 with us supplying the material. Price is a bit higher because a) capsules are coming from Capsugel which are cost more, and b) I need to granulate and dry the material in the oven which requires a lot of extra labor. This would be an '09 delivery as well.
